## Sprint Race Friday Evening

## Canoe Classic Set For This Saturday

The 21st running of the Michigan International Canoe Classic on the world-famous AuSable River will get under way here at 1:30 p.m. Saturday, August 5th.

Over 30 teams are expected from Michigan and other mid-west states to challenge the grueling 240-mile trip from Grayling to Oscoda.

Five-time AuSable River Canoe Race champion Ralph Sawyer, of Oscoda, fully expects to take top honors in the 1967 race classic August 5-6 in competition with sixteen other professional canoe racing teams from the Midwest.

Sawyer, canoe manufacturer in this eastern Michigan resort town, has been in training since the ice left the famous trout fishing and canoe stream in mid-April. He's already won several sprint events in Michigan this season with partner Stanley Hall, also of Oscoda.

The team of Sawyer and Hall are odds-on favorites to win this year according to East Michigan Tourist Association officials. Hall is also a veteran Michigan racer but has never gained the 240-mile AuSable River race trophy. Both athletes are in top physical condition and are ready for the grand-daddy of all canoe races which comes of age this year in the 21st running of the event.

Watching the Sawyer-Hall duo for any weaknesses or mishaps will be a quintet of canoe paddlers by experienced racers, many of them veterans of AuSable races.

They include Jack Kotke, Detroit and Jerry Kellogg of Twin Lake; Al Widling, Holly and Cecil Lane, Flint; Ed Adams, Holly and Ron Raynak of Greenbush; Robert Gillings, Lansing; and Jack Kent, Atlanta; and Kenneth Ketter, Brooklyn Park, Minnesota and Clint Wydell of St. Paul, Minn.

The two day event on the big river will begin in Grayling at 1:30 p.m. Saturday August 5th with the first leg to Mio. From Mio, racers will leave at 6:30 a.m. on Sunday, August 6, for Oscoda on Lake Huron with the finish expected at about 3:00 p.m. at the Oscoda Yacht Club near the river's mouth.

Sawyer and Hall will start in ninth position in a field expected to top twenty by race time. Ray Lane, Wayne, Michigan and Malcolm McDougal, Glennie, will be in the number one position. Teams will start at 30-second intervals.

A sprint race will be held Friday evening, August 4, at Grayling. Professional paddlers will race a short 8-mile course upstream on the AuSable and back from the US-27 Bridge starting at 7:00 p.m.

\$3,000 in prize money will be divided among the top ten canoes in the professional division for the 240-mile two-day canoe classic. \$1,200 will go to the winning team. Amateurs will race for trophies and glory. To date 17 pro teams and 13 amateur teams have entered, according to race chairman Ron Frosh of Flint. Race Sponsor is the Michigan Canoe Racing Association, Inc.

## LITTLE LEAGUE GAMES!

By Harry Miller

The last half of the season started last week and found the Sorenson Sluggers continuing their winning streak. The Moose scored 1 run in the second inning. Jim McClain of the Moose blanked Sorenson until the fifth inning when Sorensons pushed across 5 big tallies, winning 5 to 1. Horning the winning hurler.

In a game involved with much heated action Sorenson again came home the victors. Cris Golinick pitching his first start of the season, controlled the Moose, scattering 6 hits to win 7 to 4.

In perhaps the hardest fought game of the season the Legion downed the Military 5 to 4 in 11 innings. Legion pitcher Randy Sajdak and Bert Kaiser of Military pitched a duel for 6 innings of regulation ball with the score tied 4 to 4. Jim Hulbert for the Legion and Larry Nielson, Military hurler, came on the mound and again the teams fought until the Legion ended the game victorious. The next game Military bounded back to stun the Legion 7 to 4.

## Summer Day Camp Closes This Friday

This Friday brings to a close the eight week session of the Crawford AuSable Summer Day Camp. Although reading improvement and arithmetic improvement classes have been the core of the program, it has been a fun-filled summer of delightful outdoor recreation and swimming. The last few days have been especially enjoyable. The recreational directors, Mr. and Mrs. Don Ferguson, have taken the youngsters on several nature hikes, including a visit to the State Fish Hatchery. Mrs. Ferguson also took the girls to Dora's Beauty Shop, where they were shown the proper techniques of good grooming and hair styling. Another excursion especially enjoyed by the group was a tour of Mercy Hospital.

One portion of the summer program that proved to be very successful was the arithmetic improvement program, taught by Miss Margaret Douglas and Mrs. Eli Beery. A number of educational aids were used in the course. Filmstrips, using stories with numbers, served to introduce and develop the basic skills in beginning arithmetic. A variety of educational games were used. "Pay the Cashier" was used to teach the different denominations of coins and bills, as well as how to make change. In this game the children "visit" the supermarket, the toy store, department store, dime store, drug store, and amusement park, while practicing the use of money. Arithmetic bingo, puzzle mazes, drills using blocks, magnets, dice and disks, a Quizmo game to learn to tell time, flash cards, an arithmetic version of Password, a First Arithmetic Game that teaches number readiness, Multi, a game to teach 10 combinations in multiplication, and many others helped to make the summer arithmetic classes enjoyable, as well as profitable.

On Thursday, August 3, the summer camp participants and their families will have a potluck dinner at the Grayling Elementary School. It is scheduled for 6:30 p.m. A program will follow the dinner. Several special awards will be presented to those students who have not missed school during the eight weeks. Other surprise awards are also planned. At this time there will be a drawing for "Grey Dawn," the pet rabbit that the camp participants have taken care of for the past two months. Any youngster who desires to participate in the drawing must have a written permission from his parents. A special part of the evening's program will be the showing of slides taken of the youngsters during the summer.

One final excursion has been planned as a finale to the summer camp program. On Friday, August 4, the camp staff and students will attend the production of a musical, "Thumbelina," at the Cherry County Playhouse in Traverse City. The children's play is scheduled for 10:30 a.m. At noon a picnic will be held at the park. Concluding the day's activities will be a visit to the Traverse City Zoo.

Camp director Fraser Dean is already busy preparing the proposed camp program for next summer.

## Library Free Films Well Attended

One hundred ninety-three pairs of eyes viewed free films shown at the Crawford County Library during the recent film program for children 5 through 10 years of age. This first summer film program was sponsored by the Library to encourage the children to read during the summer months. Many took books home on one of the twenty-odd film subjects shown. Many younger children were able to borrow books who would ordinarily have to wait until they obtained instruction at school.

The Library Board wishes to thank Mr. and Mrs. Roger Nelson, Mrs. Don Millikin and Mrs. Ronald Larson who helped every Thursday morning during the six-week program, also the Cancer Society for the loan of their 16 mm. projector. It is hoped that a similar film program will be offered next summer.

## "Buckeyes" in Review Saturday

CAMP GRAYLING — Additional riot control training, added to the schedule at the last minute in response to a call by President Johnson, and the annual Governor's Review highlight this first week of summer camp for Ohio's 37th Infantry Division.

Still, the number one training mission for the Ohio National Guard division will be combat training, with emphasis on squad and platoon exercises.

The expanded riot training, was added to the schedule following the President's speech of last Thursday night on racial rioting, in which he cited the need for additional riot control training by the guard.

Then Sunday, the division received from Continental Army Command a new directive, calling for 16 hours of riot control training yearly, instead of the former six.

The training here is in addition to the 16 hours, which will be conducted at home armories over the next year.

In announcing the additional course, Lt. Col. Robert Teater, Columbus, the division's operations and training officer, said: "Recent civil disturbances have changed from the traditional massive riots involving large crowds. This year's rioting in Detroit, Newark, Cincinnati, and other cities, somewhat resembled guerilla warfare, with small bands striking sporadically and ranging over large areas."

"Sniper fire from buildings and moving vehicles also was prevalent," he said.

"These trends require applications of tactics in which guard units need additional training," he said, noting that the national guard in Michigan and New Jersey has received bad publicity "for not being able to adjust."

The standard riot control training for guard units in Michigan and Ohio has been six hours a year, mainly in use of formations and gas to control large crowds. Col. Teater noted, however, there was no gas used in Detroit, and no formations.

The new training will include more of the "old combat in cities techniques," Col. Teater said, including street fighting, and going into buildings to flush out snipers.

Maneuverability and "organization of fire teams" will be added to the standard training in formations, bayonet drills, and use of chemical munitions.

In addition, Maj. Gen. Wilbur H. Fricke, of Waynesville, near Dayton, division commander, announced plans to maintain unit integrity at all times during the two-week field training period in period in preparation for possible deployment to Ohio. "Within two hours, the 37th can be on the road to Ohio," Gen. Fricke said.

It was noted that when the mobilization call came for the Michigan national guard division (training at Grayling at the time), many of the men were away on weekend passes.

Ohio division leaders said men still will be released on pass, but at least one brigade (about 1,500 men) will be kept intact. No more than one of its companies (about one-fourth of the men) will be allowed on pass at any one time.

There are about 7,500 men here at camp.

Governor Rhodes of Ohio is expected at Grayling to review the 37th Division for the fifth straight year.

With him this year will be Congressman Frank T. Bow, of the Canton, Ohio, area, a long-time supporter of the national guard.

The Governor's Review, scheduled for 10 a.m. Saturday, winds up the first week of training.

The public is cordially invited to witness the review on the parade field at Camp Grayling, next to Lake Margrethe.

## Sunday, Aug. 13th

## Frederic Community Picnic

The Frederic Township-Volunteer Fire Dept. will again sponsor a Community Picnic. It will be held on Sun. Aug. 13th, at the Township Park.

A program is being planned by A/C Dean Welch and his committee which should provide enjoyment and relaxation for all who, because of loyalty, interest and for just old times sake, will attend.

Thru the cooperation of the

Frederic Hobby Club, there will be contests and/or games for the youngsters. Pop, ice cream bars, potato chips, etc., will be available for their eager personalities.

An appetizing menu has been planned for all. There will be hamburgers, hot dogs, served right from the grill, with plenty of cole-slaw, baked beans, relish and pickles to meet the challenge of demanding appetites.

Serving will begin at 12 o'clock noon, and continue thru to 3:30, at which time there will be a "break" for the benefit of those who might possibly like to watch the stock car races at the Frederic Race Track. At approximately 6 o'clock, serving will be resumed, and will continue until there are no more "customers."

The grand finale on the program will be an elaborate display of fireworks, which should bring forth many "ohs" and "ahs."

The Fire Dept. extends a cordial invitation to all who would like to drop in for an old-fashioned get-together.

## SHERIFF'S DEPT. REPORT

Sheriff Arthur Clough reports the following during the week of July 25th through 31st:

On July 27th Sheriff's Deputies were called out to Camp Grayling by Major Edmund Rutkowski in regards to a trespassing by civilians. It was reported that four cars were driving around the Ammunition Supply Point. Three Sheriff's cars were sent out and road blocks were set up. At 12:10 a.m. responsibility for security was given to the Ohio National Guard and the deputies were relieved to perform their own duties.

Sheriff's Deputies were called out on an ambulance call on the South Branch of the AuSable River July 29th when Eugene F. McDowell of Birmingham, Michigan suffered a broken leg while trout fishing. He was wading upstream and lost his balance. It was necessary to put a splint on the injured leg. They borrowed a canoe to float the victim across and down river to where the ambulance was waiting. He was taken to Grayling Mercy Hospital for further treatment.

The department also handled: Five auto accidents, six ambulance calls, investigated one B & E, gave assistance at one fire, issued 29 drivers licenses, gave assistance to seven motorists on county highways, checked out 25 complaints. Four persons were lodged in the county jail for various reasons.

## Crawford County Recreational Activities

It's Grasshopper time on the miles of Trout water in Crawford County. Nice catches of trout are being taken on the AuSable Main Stream, South Branch, North Branch, and Upper Manistee River. Working well also on quality fishing sections during the day is the Maden Skunk. Evening hatches of Yellow Stone Flies are on and big bugs at night. Upper Manistee River fishermen are still taking nice catches of trout with bait.

Daytime canoes and canoeing campers will find all rivers in the county ideal for this recreational activity. Rivers are low, clear and clean, and insects are at a minimum. There are ample public camping sites on the Upper Manistee River, Main Stream AuSable, South Branch, and North Branch.

Berry pickers will find huckleberries in their prime throughout the county, especially in burn areas.

Pan fishing remains good on Lake Margrethe, K P Lake, and Shupac Lake.

Camping sites in the twenty county camp grounds are ample and range from primitive campsites along canoeing trails to the modern campgrounds at Hartwick Pines, Kneff Lake, and Lake Margrethe.

Mrs. Bruce Carlson, David and Lisa and Mrs. Ted Carlson returned home July 23rd from a six-week trip to the west coast, where they visited the children's great grandmother Mrs. James McGregor of Riverside, Calif. and Barbara's brother Lynn House at Auburn, Calif. They toured most of the places of interest, including most of the national parks enroute, Mt. Rushmore, Yellowstone, etc., and those in California too. They stopped at the ranger station 50

miles from Pierce, Idaho and saw Bob Carlson, and at Kallispell, Mont. and visited Karen Carlson (Mrs. Charles Eakle), and had a most enjoyable trip. But Grayling looked good when they got back, they reported.

Mrs. Robert Klein, Carolyn and Mrs. Louise Torry of Moorestown made a trip to Essexville Tuesday of last week and visited the James Klein family, bringing grandson Bob back for a visit. The James Kleins spent the weekend here visiting the Robert Kleins and the Lyle Whipples in Moorestown and took son Bob back with them.

### LETTERS TO THE EDITOR

28 July 1967

Mr. Howard D. Madsen, Editor  
The Crawford County Avalanche  
Grayling, Michigan 49738

Dear Mr. Madsen:

On behalf of the officers and airmen of this unit, I would like to take this opportunity to express our sincere appreciation and thanks to you and to the people of your fine city for the kind and hospitable treatment we received during our recent stay there. We have, over the past thirteen years, deployed our unit to numerous areas throughout the United States, but none

has been more enjoyable than our stay in Grayling, exemplified by our volunteering to return to Grayling if we again train in this area.

We also wish to thank you for the recognition of our unit in your Crawford County Avalanche and for your warm personal hospitality.

Our people always seem to be able to create lasting friendships wherever we may go, and I can assure you that Grayling is by no means an exception, proving that any so-called "division" between Southerners and you fine people is non-existent. Everyone we were fortunate

enough to be associated with your beautiful "Avalanche" was particularly sure you such a home-like leaves warm and impressions on the visit have in your area.

A cordial invitation is open to all of you people in if you ever pass through area.

Sincerely,  
Charles W. Smith, Jr.

### Attend The Church Of Your Choice

THE CHURCH FOR ALL - ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. If you go to church regularly and read your Bible daily.

In every city, there are places that never sleep. Industries, hospitals, police stations, fire stations, churches... yes, churches! Oh, you may say, a church is asleep in the morning and find the building dark, but the Church is not asleep! For the Church serves the moral tone of our society and without the concern that the Church injects into our community there would be no hospitals, nor homes for children and the aged, nor even police and fire stations. It was only after people learned to care about each other that they began to provide these services. And this Church has always cared. As I have loved you, love one another.

Every minute of every day and night, compassionate hands are reaching out to someone in need because the Church is awake to that need.

The Church is made up of people. When you become a part of a church, you have contributed to the continuity of its work which has sustained and refreshed humanity through the centuries. Also, you are helping to perpetuate and strengthen your own faith.

## Bells Again

With the coming of August, the hottest days are upon the land. With this climax of summer will come the month of September — for millions of young people to return to tens of thousands of schoolrooms on the land.

Today's world, the sum total of man's knowledge exploding upward at an accelerating pace. Many more years of schooling to become a trained human being with the established, at desire and ability to continue the learning throughout life.

Cost of education today is a major tax. With this in mind, many of the "older n" sometimes voice the doubt that "all schooling is really worth it." They wonder if a crop of young people we are raising, as sit-inners, rioters and school dropouts at deal of publicity, but they are a tiny portion of our school population and would probably trouble wherever they were and whether any education or not.

Real promise of the future lies in the vast of hardworking young people who look to school days opening again this fall. For the social companionship, excitement of activities, but also because they feel a sense of learning about their heritage and exploring the vast fields of knowledge now being unfolded to man's mind. As the bells ring again, we all should wish them

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE  
FILES OF THE AVALANCHE OF 23 YEAR AGO

August 3, 1944

Mr. and Mrs. Stanley Flower are entertaining Mr. and Mrs. William Albrecht of Algoma, Wisconsin. Now that in itself isn't such big news... but the interesting part is that they bicycled 112 miles of that trip and made the 60 miles of the total 172-mile trip by boat. The Albrechts left Algoma Saturday at 7:30 o'clock and arrived at the Flower cottage at Lake Margrethe at 6:30 Sunday, a little tired, but happy. They started on the return trip Thursday, using the same novel manner as that by which they came. Mrs. Albrecht and Mrs. Flower are sisters.

Mr. Claude Wilson of Vanderbilt, Michigan, has recently been called upon to serve as district supervisor of the milkweed pod collecting program of War Hemp Industries, Inc. He will, with the assistance of the county agricultural agents, county school commissioners, county war board chairmen, Scout leaders and others, arrange for the collection of milkweed pods. During the coming fall, the U. S. Government has requested for manufacture of life jackets for the Army and Navy 1,500,000 lb. of floss, which will require 2,250,000 50-lb. onion bags full of the pods. The schoolchildren will collect possibly 95% of all the milkweed pods that are gathered. Last year they did splendidly in a program that was a little delayed in getting under way. However, this season, with an ample supply of empty bags available before school begins and all necessary organizational details well in hand, the program of harvesting can be considered as "in the bag" so to speak. It requires the floss from two bags of pods to make one life jacket.

Mr. and Mrs. Roy Newberry went to Flint last week to visit their daughter, Miss Betty Newberry.

Mr. and Mrs. A. J. Kaiser, of the AuSable Hotel, Frederic, entertained Mr. and Mrs. William F. Bigham, Mr. and Mrs. John F. Bigham, Mr. and Mrs. Jesse Wardlow at Zuel's Tavern Tuesday evening. ## The Michigan Mirror

## HIDING THE FACTS

A new rash of efforts to conduct public business in private seems to be developing. It is especially apparent among school boards.

The law states that school boards, and most other public bodies, must hold their meetings in public but does allow for executive sessions. It stipulates that no formal action be taken except at a public meeting.

Numerous "advantages" are listed for holding closed meetings. These include efficiency, expediency, the need to deal with personnel problems, and property purchases. Another "advantage" not heard so often but nonetheless pertinent is that board members need not worry about looking foolish in their deliberations in the absence of an audience.

It might be more efficient and more expedient for a board to meet in private. But American government is built upon the basis that the individual has a responsibility in making logical, government decisions at the polls. He has a right to know how his elected representatives deal with public problems.

Newspapers lead the fight to keep meetings open and always win when people in the community back them. Without solid, local support officials are inclined to do as they please. It is the old story of people getting the kind of government they demand.

Some boards make too frequent use of the executive session as a means of conducting public business in private. There are records of boards which meet in private to decide what will be "decided" later in formal session. This has the effect of creating a very dull, cut-and-dried meeting.

Another way to avoid the spirit of public meetings is for the board to call a special meeting. State law does not require much in the way of public notice. So a special meeting can be called following a regular meeting or at any time board members want to act officially without being subjected to the public eye.

Responsible or unconcerned citizens can expect that their governmental units will move towards more secrecy and more private decisions. After all, it is easier, quicker and more efficient. But it leads to poorer and poorer government with the rights of more and more people endangered. It means government by the few for the many who don't care enough about their collective business to be concerned until it is too late.

**OUTDOORS with GORDIE**  
by GORDON CHARLES

Fellow we know down in Kansas says he finds his wife indispensable when it comes to fishing. Says, in fact, he couldn't go fishing without her!

For instance, he swipes her fingernail sanding boards to use in sharpening his fish hooks, sneaks her clear nail polish to touch up chipped spots on his casting lures and to baiten down loose guide windings, "borrows" her silver polish to brighten his spoons and spinners, latches on to a loose tablecloth to use as a fish sealer, and uses her vacuum cleaner with the hose reversed to dry out his soggy boots after he gets home from a fishing trip. She can't even leave a rubber girdle he around because he has discovered they can easily be cut into skirts and strips for enhancing the action of his plugs. Her refrigerator comes in mighty handy for preserving crawfish and nightcrawlers between fishing trips. Her Easter bonnet with feathers is fair game for fly tying. Any kind of fur, from coats to neckpieces, works nicely for tying bucktails on jigs. Her manicure scissors make ideal floss trimmers. The floss? Oh, he unravels that from her hankies or scarves.

Round earrings form excellent attractors to hang behind spinners. Yep, he admits, he even takes along her favorite sweater and slacks once in a while. With her in them of course.

Kidding aside, do you know why some anglers seem to have more "fisherman's" luck than others? There's one very good reason.

Most anglers invest considerable money in rods and reels, then fail to pay the price in lures that is necessary to catch fish.

You must fish where the fish are. Most of the time that is right down on bottom among the rocks and brush that inevitably take a heavy toll in plugs and jigs and other hardware.

Loss of tackle is part of the price of fishing. And the willingness to pay this price often separates the amateur from the pro. The latter has learned from long experience that worrying about the well-being of a lure is false economy.

Fortunately, not all lures that get hung up are lost. A careful fisherman can shake most of them free and all that is lost is a few minutes of casting time.

If you must worry about underwater obstacles, be concerned more about finding such spots than avoiding them. When you start snagging lures you will probably start catching fish.

**Observe 50th Wedding Anniversary**

The children of Mr. and Mrs. Robert Hodgins of Detroit entertained their parents with a dinner at the Chief Shoppenagons Motor Hotel July 30th in celebration of their 50th wedding anniversary, which fell on August 2nd.

The former Lillian Seaman of Loon Lake and Robert Hodgins were married at Loon Lake August 2, 1917. Mr. Hodgins went into the armed forces and the couple lived at Ft. Custer for a year. They then moved to Williams, Arizona for a while, then to Peacock, Michigan, where they remained until 1939. Gaylord was the family's next home, until their final move to Detroit in 1942. The couple has two sons, Donald of Detroit, William of Gaylord, and two daughters, Mrs. Marvin Weisman (Marie) of Detroit and Mrs. Melvin Nielson (Ruth) of Grayling.

Besides members of the family from out of town Mr. Hodgins' brother and wife from Grand Rapids, Mr. and Mrs. Alton Hodgins, were present for the happy occasion.

**PUT A LITTLE SPICE IN YOUR LIFE**

Is your food preparation a rut? Do you feel you want to try something different and add variety to your meals? Then why not try experimenting with the use of herbs and spices — for they can make so many common place dishes appetizing, appealing and glamorous.

First of all it might be a good idea to check your present supplies; how long have you had them? Old age doesn't improve the flavor and many recommend a change if you have had your supply over six months. To judge the quality of your supply, first check the color; it should be rich and fresh — this is particularly important for herbs and pakrika. Bring the condiment slowly up to the nostrils. The pungence of the spice should rise up to meet you. It should be strong and fresh except for a few nonaromatic or faintly perfumed items such as mustard seed, sesame seed, and poppy seeds.

Whole spices will keep longer than ground spices. And herbs tend to lose flavor a little faster than such items as pepper, ginger, cinnamon and cloves. For that reason many cooks prefer to buy herbs in the whole or leaf form and whole spices.

For best results spices should be stored in as cool and dry place as possible. Heat robs their flavor and dampness will cake them. Be sure that containers are tightly closed after every use so that the volatile oils are not lost from the spices. It will also help if we know the difference between herbs and spices.

Spices proper are the roots, bark, leaves, fruit, or herbs of aromatic plants grown in tropical lands. Some of the "real" spices are clover, allspice, pepper, cassia (known to us as cinnamon) ginger, mace, and nutmeg. In addition, there are blends of spices such as chili powder, poultry seasoning, pickling spices and many others.

Herbs are the leaves of plants grown only in temperate zones. Some popular herbs are bay leaves, basil, celery leaves, oregano, parsley, mint, marjoram, sage, rosemary, savory and thyme.

Seeds are from plants grown in both tropical and temperate zones. The more common ones are anise, caraway, mustard, dill, fennel and poppy.

Seasoning salts are combinations of dehydrated vegetables such as celery, onion and onion with table salt.

The whole world contributes to spice eating. The list of lands from which over 50 spices come reads like an exotic travelogue.

The ability to season foods properly too is what makes a chef out of a cook. "Spices are those little items that put the extra zest into a dish and are responsible for the tantalizing aromas that float from the kitchen. And they can give many a budget weary dish a wonderful lift."
